

Defining and Managing Additional Property Features

By: Fred Mac Donald
Sunday, 13th October 2013

Additional Property Features are an easy way to define features in properties that are often the same.

SummaryDetailsFeaturesDescription

BBQ

Build in Robes

Central Heating - Oil Fired

Close to Schools

Close to Shops

Fireplace

To manage these log in and navigate to the Administration Section » Dashboard » Manage Property » Additional Features

This is a simple screen to change the type or add a new feature.
