Defining and Managing Rent Frequency

By: Fred Mac Donald
Sunday, 13th October 2013

Rent Frequency is used to show how often rent would be payable for a property

By Defaults we have the following defined

- None
- Per Fortnight
- Per Month
- Per Night
- Per Square Foot
- Per Square Meter
- Per Week

To manage these log in and navigate to the Administration Section **»** Dashboard **»** Manage Property **»** Rent Frequency

This is a simple screen to change the type or add a new type.
